POTENTIAL HAZARDOUS WASTE SITE SITE IDENTIFICATION

General Information

The Potential Hazardous Waste Site, Site Identification form is used to record site location and related information about alleged, potential, or known hazards at the site when the site is initially identified.

General Instructions

Complete the Site Identification form as completely as possible. Add additional information as it becomes available. Additional information may be added by using another Site Identification form, completing only those items to be added, deleted, or changed. Mark the form clearly, using "A", "D", or "C", to indicate the action to be taken. The Site Source Data Report may be used if only data in the Site Tracking System (STS) are to be altered. Using the report, mark clearly the items to be changed and the action to be taken. Starred items (*) are required for the site to be added to STS. The system will not accept new sites with incomplete information.

Detailed Instructions

I. Identification

- *I-01 State: Enter the two character alpha FIPS code for the state in which the site is located.
- *I-02 Site Number: Enter the ten character alphanumeric code for sites which have a Dun and Bradstreet or EPA "user" Dun and Bradstreet number or the ten character numeric GSA identification code for federal sites. Numbers will be obtained through the Superfund coordinators in each Region.
